

NLP in 2023 Macro Outlook Reports

Diogo Gouveia Jr

Every beginning of a year, most major financial players project their macroeconomic forecasts for the current year. Since this can be a very long read, we will use machine learning techniques to try to better understand these projections

For this study we will use the following reports:

- Goldman Sachs https://lnkd.in/eKzF_2K4
- J.P. Morgan <https://lnkd.in/eHb6-622>
- Morgan Stanley <https://lnkd.in/e2nAMjmM>
- Bank of America <https://lnkd.in/e8XFD8TW>
- BlackRock <https://lnkd.in/eYxCBRGj>
- HSBC <https://lnkd.in/eNfBiJvH>
- Barclays <https://lnkd.in/eRT4dsFY>.
- NatWest <https://lnkd.in/euftbUw6>
- Citi <https://lnkd.in/eXwA-Y4X>
- UBS <https://lnkd.in/exudCU6V>
- Credit Suisse <https://lnkd.in/e4CEK5NZ>
- BNP Paribas <https://lnkd.in/ec4hWEdm>
- Deutsche Bank https://lnkd.in/eAWCSV_7
- ING <https://lnkd.in/eNpdmVH8>
- Apollo Global Management, Inc. https://lnkd.in/ewwq_62M
- Wells Fargo <https://lnkd.in/euMkQnKE>
- BNY Mellon <https://lnkd.in/ezMfVgND>
- Fidelity International <https://lnkd.in/eJwK6tVx>
- Lazard <https://lnkd.in/eku-xhqp>
